PROFILE

Versatile and results-driven Full-Stack Developer with over three years of expertise in crafting high-performance web applications using cutting-edge technologies such as ReactJS, Vue.js, TypeScript, and GraphQL. With a unique background in healthcare and technology, I possess a sharp analytical mindset and a passion for delivering innovative, user-focused solutions. A proven leader in Agile environments, I excel at collaborating across teams to drive impactful projects while maintaining a commitment to continuous learning and excellence.

OBJETIVES

Combining over 10 years in medicine and 3+ years in web development, I aim to bridge healthcare and technology through innovative software solutions.

HARD SKILLS

JavaScript
ReactJS
Redux
NodeJS
NextJS

EXPERIENCE

Front-End Developer & Web Designer | Henko-AI

02/2024 - present | Remote - Spain

- Spearheading the development of a Progressive Web App with an emphasis on intuitive interfaces and responsive designs.
- Successfully migrated legacy platforms to modern frameworks, utilizing ReactJS, Redux, and TailwindCSS.
- Designed and implemented dynamic interfaces with GraphQL and AI APIs to enhance functionality and user experience.
- Automated business-critical operations, improving efficiency across pharmaceutical shipment and payment processes.

Front-End Developer (Vue.js) | isEazy LMS

03/2023 - 02/2024 | Remote - Spain

- Directed the evolution and optimization of a Progressive Web Application (PWA), prioritizing mobile-first design and scalability.
- Drove success across 14 Agile-Scrum sprints, ensuring the seamless delivery of features through active participation in sprint planning, stand-ups, and presentations.
- Championed a comprehensive migration from outdated technologies (PHP 5.5, JavaScript ES5) to a modern stack using Laravel, Vite, Vue 3, and TailwindCSS.
- Improved code quality and collaboration through consistent contributions to private and open-source projects, leveraging GitHub workflows.

Software Engineer | atSistemas

03/2022-01/2023 | Remote - Spain

- Architected and deployed dynamic web solutions tailored to client specifications, surpassing expectations and boosting operational efficiency.
- Streamlined development workflows by integrating cutting-edge technologies, driving performance optimization across multiple projects.
- [See all my works here!](#)

MERN-Stack Developer | Freelance

05/2020-03/2022 | Granada - Spain

- Delivered custom software solutions to over 10 clients, ensuring scalability and seamless functionality.
- Designed, developed, and launched 5+ websites, enhancing user interaction and business presence online.
- Cultivated expertise in AWS (Ec2, S3, DynamoDB and Lambda) REST APIs, MongoDB, and the MERN stack, ensuring robust application performance.
- See all my works [here!](#)

EDUCATION

MERN Developer | OXYGEN Academy

05/2021–08/2021 | Spain - Remote

- Worked with Agile Methodology, 14 Sprints, 3 weekly Meeting and final product presentation,
- Contributed through Github workflow both private projects and open source works.
- Here, Some of My Work:
- PicFinder : <https://enriquedonaire.github.io/PicFinder-App>
- Oxygen-Shop : <https://Enriquedonaire.github.io/Oxygen-Shop-Enrique>

Full-Stack Developer | Ironhack

05/2021–08/2021 | Spain - Remote

- Learned +3 programming languages..
- Launched +10 Web Dev projects and +3 Full Apps.
- Tech stack: React JS, Node.js, Express.js, MongoDB, Mongoose, HTML, CSS, JSX, REST API, Javascript.

Bachelor's Medical Degree (MD) | Barceló Foundation

09/2001–09/2009 | La Rioja - Argentina

- Successfully completed a comprehensive medicine program,
- Engaged in over 300 hours of clinical practice in diverse healthcare settings
- Completed rotations in various medical specialties, accumulating experience in internal medicine, surgery, pediatrics, and gynecology, among others, to develop a comprehensive understanding of medical practice.
